## AWARDS & Participation

Secured 2nd prize in National level Techfest conducted in RGUKT-NUZVID

Worked as a Helping Hands Representative

Volunteer for Teachers day and some of the events in our college

The main Objective of the project is to assess the personality of a person based upon his face features. Conducted a survey from bigfive-test.com for more than 150 students and gathered required feature vectors from image data of the students with its corresponding output classes from bigfive-test.com. It is a Real time personality assessment of new face and predict corresponding personality classes.

## 2 - Sorting-Algo-Visualizer

**Duration:** 4 Months

**Team Size:** 4

**Role Played:** Team Leader

**Skills Used:** HTML, CSS, TS, React

The idea of this project is to demonstrate the working of Sorting algorithms. As a part of that we implemented a web application, which shows Visualization of some of the basic sorting algorithms like Bubble sort, Quick sort..etc. It shows a step by step process of how a particular algorithm works. (It contains UI components and interprets commands into visualizations).

## 3 - Covid19-FAQ-Chatbot

**Duration:** 1 Month

**Team Size:** 2

**Role Played:** Team Leader

**Skills Used:** Python, Flask

It's a python flask based application to answer covid-19 Frequently Asked Questions.

**Code:** <https://github.com/mounika123chowdary/Covid-FAQ>

### Area Of Interests

Coding

Algorithms

Deep Learning

### Hobbies

Reading Spiritual Books

Coding

### LANGUAGES

English, Hindi, Telugu.
